

Subject: We're kicking off the TUTOR Parent View program!

Dear [[PARENT/CARER]]

We are writing to let you know about an online maths platform called TUTOR, which we think could benefit your child, and this software will provide **unlimited home tutoring support**. We launched Complete Mathematics TUTOR in schools last year for both in-school and at-home learning, and now we can offer a Parent View, furthering your ability to support your child's maths learning.

TUTOR is an online maths platform designed to be an affordable, but equally effective, alternative to private tuition. TUTOR covers every level of maths from learning to count all the way up to calculus, and pupils can choose to follow a set course, or let TUTOR choose the right starting point for them.

TUTOR will help your child revise and improve their maths through a mixture of videos and quizzes — it is easy to use, and your child will have unlimited access to all of the online lessons and support **at any time**.

Now, **through Parent View, you can encourage your child** at home as they earn awards or complete goals on TUTOR, or even work with them on their TUTOR courses, dramatically strengthening their mathematical skills.

Activate TUTOR for your child & your parent access today:

To access TUTOR, point your phone's camera at the square QR code on the right — this will take you to a sign-up page. You should use our unique school token, **6fxfsi**, to create your child's account first, after which you can create your own parent account.

Support the TUTOR Movement

Please consider supporting other pupils in need at our school **by funding your child's account** for **only £1 a week**. This request supports the movement to offer free seats to pupils and parents who cannot afford it.

When creating your account, you will be prompted to pay for your child's access, please select "I am happy to pay" at this point. Since our school has been utilising Complete Mathematics in our classrooms, we can assure you that the unlimited support at home will be a benefit to your child.

The Complete Mathematics TUTOR movement is simple: all students should be able to access tuition in mathematics, regardless of their background or socioeconomic status. With the support of parents who can afford it, we can deliver the benefits of tuition to every single pupil by paying it forward to those in need.

Our school and Complete Maths' TUTOR program thanks you sincerely in advance for your support and participation. To learn more about Complete Maths TUTOR at anytime go to: <https://completemaths.com/tutor/parents>
